

THE ULTIMATE ANTI-GLARE LED LIGHTING SERIES FOR SAFER, BRIGHTER WORKING ENVIRONMENTS

J.W. SPEAKER
Engineered. Lighting. Solutions.

Model 526, 792 & 893

MODEL 526

Increase Confidence

The Model 526 Anti-Glare is engineered to enhance visibility while minimizing the dangers of glare. Ensuring safe and effective illumination for mining haul trucks and other demanding environments, the Model 526 Anti-Glare is designed to provide maximum visibility without impairing oncoming vehicle safety.

MODEL 792

Maximize Productivity

Coming from our Compact Work Light Series, the Model 792 Anti-Glare is engineered with tight spaces in mind. Equipped with advanced anti-glare technology, the Model 792 ensures workers experience clear, bright light without the risk of blinding glare, enhancing safety for both the operator and their surrounding team.

MODEL 893

Optimize Safety

The Model 893 Anti-Glare is designed to shine brightest in the harshest, most demanding worksites. Its anti-glare features minimize eye strain and ensure clarity, allowing workers to stay active, productive, and safe at all hours and in any weather. The durable, pedestal-mounted LED light fits easily on a wide range of work vehicles for nonstop productivity.

MAXIMIZE PERFORMANCE AND SAFETY WITH OUR ANTI-GLARE LIGHTING SOLUTIONS

Anti-glare LED lighting plays a crucial role in mining, agriculture, and port operations, where visibility, safety, and performance are essential. Here's how it impacts these industries:

Mining Industry

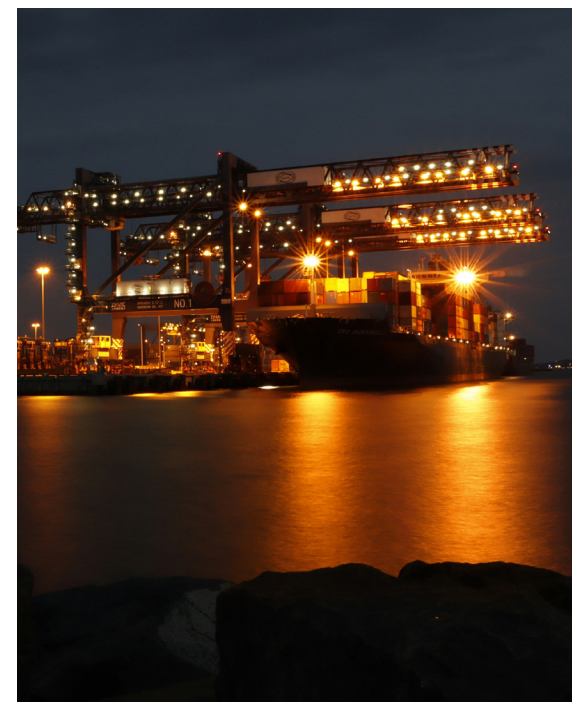

- Enhances Safety
- Improves Productivity
- Prevents Fatigue
- Withstands Harsh Environments
- Energy Efficiency

Agricultural Sector

- Optimize Plant Growth
- Improves Animal Well-being
- Reduces Farmer Fatigue
- Weather Resistance
- Increases Operational Efficiency

Port Authorities and Shipping Operations

- Enhances Safety & Security
- Improves Efficiency
- Prevents Visual Discomfort
- Weather Resistance & Longevity
- Supports Surveillance

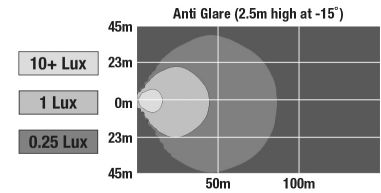

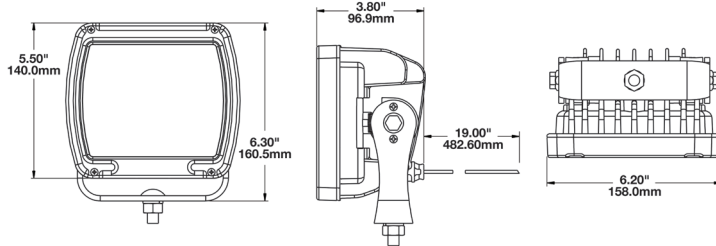

THE BENEFITS OF ANTI-GLARE LIGHTING FOR ANIMALS

Beyond industrial applications, these lights play a crucial role in protecting animal safety. By reducing stress, preventing disorientation, and supporting natural behaviors, anti-glare lighting helps preserve the health of both livestock and wildlife. In natural habitats, it minimizes the impact of light pollution, supports circadian rhythms, and prevents collisions for birds and marine life. Whether in urban, agricultural, or wildlife settings, anti-glare lighting ensures a safer, more comfortable environment for both humans and animals.

PRODUCT DETAILS

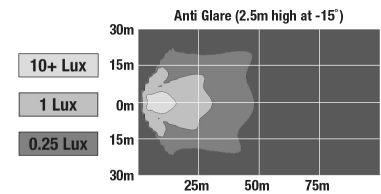

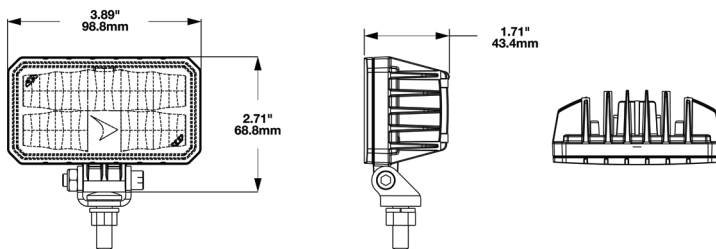

MODEL 526

Part No.	Description
1300821	12-24V LED Anti-Glare, Eco-Friendly Work Light with Black Housing

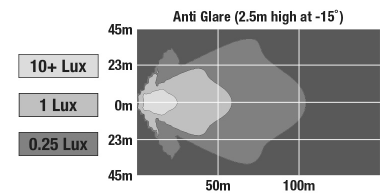

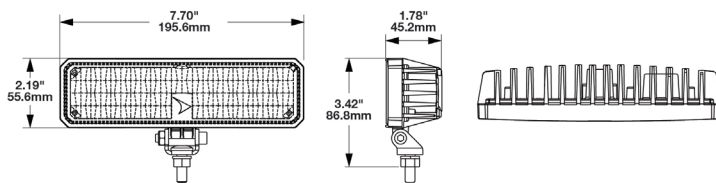

MODEL 792

Part No.	Description
1604241	12-24V LED Anti-Glare, Eco-Friendly Work Light with Pedestal Mount & Harness

MODEL 893

Part No.	Description
1300811	12-24V LED Anti-Glare, Eco-Friendly Work Light with Pedestal Mount
