

MODEL 215

SIGNAL WITH CONFIDENCE

Stay Safe, Stay Visible

Enhance the visibility and safety of agricultural equipment with this high-performance LED front position and direction indicator light. This durable and reliable light ensures that you stay visible on any terrain, whether you're driving through dense woods, muddy trails, rugged landscapes, or going from site to site.

The Model 215 was originally designed for agricultural markets, but can be used in a variety of markets.

MODEL 215

TOUGH AND RELIABLE

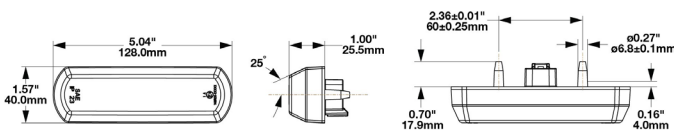

From navigating different terrains or working in low-visibility conditions, the Model 215 offers superior signaling performance to keep you safe and compliant on or off the road.

Sleek Design

Designed to exceed industry standards, the Model 215 is built to withstand tough environments, providing durable, long-lasting performance. Its rugged construction ensures that it continues to function reliably, even in the harshest conditions. Stand out in the toughest environments with a lighting system that prioritizes safety and performance.

- Front Position & Direction Indicator Functions
- Lightweight & Efficient
- ECE Compliant
- Durable Polycarbonate Hardcoated Lens

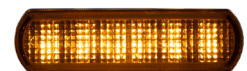

Featuring high-quality LEDs, the Model 215 provides superior visibility, enabling drivers to move through challenging environments while staying seen. Whether you're on back roads or in the field, this lighting system delivers consistent and reliable performance, helping to prevent accidents and ensure the safety of both the driver and those around them.

Improve your vehicles safety features with this clear, dependable light. The Model 215 guarantees your signals are visible every time you change direction. Enhance your driving experience and protect everyone on the road with J.W. Speaker's Model 215, where reliability meets innovation.
