

MODEL 4415 LED WORK LIGHT + CAMERA

ELIMINATE BLIND SPOTS

MODEL
4415

Increased Safety and Visibility.

J.W. Speaker's Model 4415 LED Work Light is a compact, powerhouse LED work light designed with a low profile, light weight, and high output for a bright-white work light.

Model 4415 now available with 3 options:

- Available in Flood, Trapezoid & Spot beam patterns
- Side View Mirror Kit includes pre-assembled shroud to block light from the driver's eyes, providing maximum visibility rearward
- Dual Mirror Mount with Camera and split screen monitor for enhanced side and rear visibility

Model 4415 is available at your authorized J.W. Speaker dealer.

MODEL 4415 LED WORK LIGHT + CAMERA

VISIBILITY, WHERE YOU NEED IT MOST

Ultimate customization for ultimate safety. The Model 4415 LED Work Light is compact and customizable to fit your vehicle's needs. The 4415 is available in different light patterns and mounting options to accommodate various truck applications. Choose from Flood, Spot or Trapezoid patterns depending on your light output needs. Panel or pedestal mounting options for easy installs. The dual light Side View Mirror Mount Kit includes pre-assembled shroud to block light from the driver's eyes, providing maximum visibility.

Boost your visibility with Camera + Split Screen.

The Model 4415 is now available in a kit with mirror mount light + camera and a split screen monitor for enhanced side and rear visibility. This solution addresses safety issues on any type of truck when backing up. Trucks have blind spots and driver vision is often restricted on the sides and rear of the trailer. The J.W. Speaker 4415 Mirror Mount with Camera provides drivers with an enhanced view of the surrounding areas to identify obstacles and hazards when backing up.

The integrated camera system and 7" split-screen monitor provides driver enhanced visual awareness on the sides and rear of the truck.
